

MALETTI

The new collection from the Maletti Group, the Italian furniture manufacturer for the spa, beauty and hair industries, is designed for any spa or salon with a hair care area. Pieces in the Bohème collection, designed by Elisa Gargan Giovannoni, founder and partner of Milan-based design studio Giovannoni Design, includes a barber chair, two styling units, three wash units, shelves and work tables, among other pieces. The bright, colourful collection includes pieces in red, yellow and auburn and is based on a design concept that aims to fuse the contemporary with the classic and the stylish with the warm and welcoming.
